

Intro (after trying and failing at love so many times , one begins to ask if theres a cure for this sickness , i need a new prescription cuz mines aint working

Verse1

Never been the one in the latest gear
Never been worried bout the top tier
But I was always tryna touch the skies
Planes flying like how I got here
At the tippy top u can drop here
Where the birds fear yet the planes go
The ones that said they never leave me / is not her
In a place where they don't need me /
When they get doe
Was the really for me , look I don't know
Did they really love me , look I hope so
Look like they only come around when they got know doe
They think I don't know
It's just my heart is my weakness
Me Loving you and who would think
U would give me this treatment
Love ones be tweaking that's y I'm grieving

Prehook

BeCuz of this pain, I need medicine
Running low , need **my** medicine
(What kinda medicine we talking bout
I can't get this love thang right
So I take medicine
When she left me she left me Mary Jane...

Hook

I need a prescription for love
Cuz I can't get it right
I Been taking dose after dosage
And still ain't feeling right
I been taking dose after dosage
The heart ain't healing right
I been taking dos after dosage
And still can't get it right

(Love)

Verse2

I never been the one to force my love on ya
Constantly text u and always phone u
Even if I'm feeling like Caledonia
U can be in jersey or California
I ain't keeping dibs know I can't clone you
I know I can't be around every morning
Or everynight wishing I could have u moaning
But to chase that bag ain't being home and
Won't pay the bills for a Queens throne
So u can have ya space when a kings gone
We went back and forth like it was ping pong
Neighbor gone hear us and ring the alarm
All she hear is screaming but ain't no harm
Them was sunny days now it's just a storm
Cold hearted no longer warm
Damn I miss u I'm kinda torn
