

# In the meantime/ NWO

Song intro ( this songs talks about the daily problems that African Americans go through in daily life “ by asking “ What kind of world are we living in “

Verse 1)

We ain't nothing but crash dummies in a crash course  
Lab rats to lab monkeys in they death sport  
Soon to be zombies or bankrupt in this discord  
Yaul thought ThT yaul was plugged in Bluetooth no cord  
Like is u ready for battle with a virtual sword  
Without Waze could u find ya way to that drinking gorge  
It's missing pages out that good book that we may need to explore  
A whole new aspect on life thats what the mind looking for  
5 percenters on that frontline yet they looking like 4s  
(We stuck on 3g yet they on 5)  
All that faith in the hiipower yet they stressing for more  
We never satisfied as people we debate less is more  
Like I'm just tryna earn a dolla an get my followers up  
I Live a life complete opposite no follow in us  
Careless about opinions if u not here wit us  
We ain't relying on the money still in god we trust

Hook)

Wat kinda world are we living in now  
Where it's not safe to go outside  
What kinda world are we living in  
If u a black Man U fear for life  
What kinda world are we living now  
They tryna take us out alive  
What kinda world are we living in.....

Verse 2 )

When u a rebel and u rebel  
They try and lock u up  
But the message still prevails  
A pandemic ain't gone wipe us out  
We been struggling for years  
But somehow we made it out  
I ain't saying it's been easy  
But we made it thru the gout

Now wakanda from Africa  
Unites a route  
Akon got a city tryna see what that's about  
Ghana said if we don't like it here  
They'll give us discounts  
If we only help them build , that's what unity's about  
My people hear , let's move with our numbers since they don't want my people here  
Anxiety our skin color got us all living in fear  
It's like do or die  
When I leave my house feel like I'm committing suicide  
And that ain't no way to live  
They persecuting u and I  
For the color of our skin

What the hell
