

Momma

Song intro (a man reaching out to his momma for a relationship!

Verse1

Tell me momma what I gotta do
Never had the chance to be a mommas boy
But nowadays I just need you
I feel like every woman that I try and love because of us it never falls thru
How I get this far without you
Whole time thinking bout u
Always pictured what a life would be
Until u broke a promise now I doubt you
Like why would momma ever hurt me
Her baby boy yea her own seed
Like please momma don't desert me
How u not water and taint the leaves
And show neglect to ya family tree
Mommy tell me why this gotta be
If only grandma knew about me
You would prolly show a lil more love and not try to hide me
Mommy tell me why it gotta be
Yea it's been cold world without you but that bought the man outta me
Momma look what I become to be
A god fearing man that's out the streets
It's like I strive just to make u proud
And still to this day u don't acknowledge me
Tell me when we ever gonna be
I ain't looking for apologies
Can u see me begging for your attention
Why u act like u don't see

Hook)

Momma .. I need my momma (mommas boy)
Momma.. I need my momma (mommas boy without his momma (repeat

(Piano solo) Momma look what I can do “
I can tickle these ivories for you

“How can I make it right “
I can play these black whites all night

What's a man supposed to do without his momma
Can go without a father ...

but I can't go a day without the woman who makes it ok ,, (ohhhhh I need my Momma)

Verse 2

Momma

Just know I need u in my life

Feel like my way done got a little dark

Wit u I know it could brighter

Momma

Lately I haven't had the best of sight

Been heading down the wrong road

I'm just tryna make it right

Momma

Nowadays it's all goin left

I wish I was back in high school

Tryna backtrack my steps

Momma

Sometimes I just need ya advice

In case I'm bout to make the wrong move

I'll get it right in the first try

I need momma

U ain't gotta be a mommas boy to need your momma

I went my whole life without my momma

And now that I'm grown I need momma

Momma ...

Talk out....
